

ASSOCIATE DIRECTOR, IMMUNOLOGY VANCOUVER, BC

STATUS: PERMANENT FULL-TIME

Location: Vancouver General Hospital – Vancouver, BC

Start date: As soon as possible

Note: The position is open until filled.

JOB QUALIFICATIONS and EXPERIENCE:

- ☑ Must have a PhD or MD degree from an accredited university, a minimum of four years experience in immunology or cell biology including two years experience in human histocompatibility testing, and hold a Diplomate of the ABHI (American Board of Histocompatibility and Immunogenetics) with ASHI (American Society of Histocompatibility and Immunogenetics) certification as a Laboratory Director.
- ☑ A strong background in serological, solid phase, molecular, and flow cytometry technologies for solid organ and hematopoietic stem cell transplantation is essential, and experience in other aspects of immunogenetics, genomics, or disease association is an important asset.
- ☑ Must have excellent technical skills and training, strong communication and interpersonal skills and the ability to work well within a multidisciplinary team.
- ☑ Must meet the requirements of the University of British Columbia and obtain a faculty appointment within the academic Department of Pathology and Laboratory Medicine commensurate with qualifications and experience.
